

Submitter: Lyndell Robinson

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I support SB1583 for reasons cited by teachers, librarians, and concerned citizens. As the grandmother of a 10-year-old with Autism, I recognize the importance of him having access to books and learning materials that represent to him a diverse world he can see himself in. If we as a country are to truly move forward, we must be inclusive when considering the offerings of our educational system.

I urge you, Senators Jeff Merkley and Ron Wyden to continue to best serve your constituents by voting yes on SB 1583. Lyndell Robinson
