

Submitter: Gail Fahlman

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

In regards to SB 1549, it's about time, no pun intended. Let's make a simple decision to leave our clocks set on Standard Time. We all benefit with Standard Time.

Standard Time is more closely synced to our biological clocks. Better sleep, fewer accidents, and more productivity in the workplace and at home, just makes sense.
