

Submitter: Tracy Cottingham

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Hi there. My name is Tracy and I am a property owner in Salem Oregon. I respectfully oppose this new measure. Not only do we have one of the highest state taxes in the nation already this would put many people at risk with their properties when our national economy is already hurting and directly after a utility rate increase that was more than we have ever seen before. It also takes away or goes around some state constitutional protections we have in place for good reason. While safety in this state is a necessary issue to consider and find solutions for, this is not the way forward for Oregonians. Thank you for your time and consideration.

Tracy
