We need to stop state control on local matters. The metro areas have no working understanding of rural Issues. Leave our property tax's alone. We generate the income and the state spends with very little input from us. This state generates excess revenues above the budget already (hence the tax kicker) fix the gaping holes in our states spending and we would have plenty of revenue to do amazing things. Pers is a disaster, our judicial system is a mess, we issue tickets to drug addicts knowing they will not pay nor change. No accountability. Our law enforcement officers are being demoralized as they watch the destruction that they are not allowed to stop. At this rate why would anyone want to work in law enforcement. So no and I do mean no to any more state control until this state can start acting responsible with what they have control of!!!!!!
