

Submitter: A Mayblossom  
On Behalf Of: Allow Education for OUR KIDS  
Committee: Senate Committee On Education  
Measure: SB1583

#### Legislators

To sponsor such a bill which does not protect our kids and instead punishes everyone who wants to receive and/or provide quality learning is not acceptable. When was the last time you spent your time visiting the classrooms, the school library, attending school assemblies and ball games? Do you know how to engage with the kids?

Teachers get threatened that, if they value their jobs, they are not to talk to school board members. Kids recognize when adults care.

I have met with teachers who share they have to stop kids from physically fighting in a class room of 2nd graders.

Some teachers have said it is not unusual to for the teacher to get hurt IN THE CLASSROOM trying to stop fights.

Can you explain why teachers are pulling their own kids out of the school system to home school them?

In good conscience, DO NOT support this bill.
