

Submitter: Lena Berry

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Please support SB 1583. We need to protect and support the inclusion of diverse materials in our schools' libraries and curriculum! Support the lived experiences of a wide variety of people that children can see themselves represented in. Protect access to literature by and about protected classes of the community. Do not erase history, and beyond that- support true, accurate & full accountings of history!

Thank you.
