

Submitter: Martha Lawler

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

The freedom to read is essential to our democracy. It allows individuals to explore diverse ideas, perspectives, and knowledge. If someone doesn't like a particular book, then they don't have to read it. But they don't have the right to force their beliefs on others who have their own right to hold different opinions and values. Book bans are an attempt to force beliefs on others. That is simply not acceptable!

I fully support SB 1583. NO TO SCHOOL BOOK BANS!
