

Submitter: Tim Wiley  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

HJR 201 is bad for Oregon. This bill will negatively impact all of the businesses and residents of Oregon. This will raise the cost of all goods and services. This bill will raise the cost of homeownership and rent as well. The additional tax will be passed down to anyone that lives or purchases anything in Oregon. This bill must be stopped. Oregon has one of the highest tax rates in the country and this will only make it far worse. We have many problems in this state that need to be fixed and the main one is out of control spending. It does not work to just throw money at the problems that ends up being wasted. I have operated a small business in Oregon for 39 years and every year it is getting harder to make any kind of profit. This bill will put a huge burden on every small business in Oregon and the small businesses are the backbone of the state and country. Kill this Bill!!
