

To Whom It May Concern:

My name is Mario Diaz and I have been a lifelong resident of Oregon. I live in Portland and work in Salem, OR. Extending the transportation line farther North is a critical need for me and my family coordinating transportation within our household. The effect on my household alone would be a minimum of 300-500 dollars a month in savings – that compounded with the stress relief of not having to drive would be life changing. This effect would not only be to me but the larger commuting population as well. I hope that this initiative is approved and it has my full support.
