

Submitter: Rick Cummings

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR201

I strongly oppose this bill. The problem of wildfires in this state is not a lack of funding, it is long term failed management of forests. Part of the justification for this bill is that nothing has been accomplished regarding wildfires over many years with study after study. That is where the state has failed its citizens. Many studies spending lots of tax dollars and never any action taken.

Many people of the state are already struggling to pay bills and support their families. Taxing more and more on top of what is already paid into the state will not solve the issue of inaction by our leadership.
