

Submitter: Laura Enoch

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please stop this measure. It is becoming increasingly difficult for the average family or elderly to afford housing in any part of Oregon. This will increase those cost in such a way that many are in danger of becoming homeless. Which is already a huge problem state wide. We voted for safety limits so help protect our residents. We want to keep these in place. Incomes are not equal throughout all parts of our state and therefore it is not reasonable to make a state wide tax on property. Please vote no on this measure. Thank you for your consideration
