

Submitter: Paul Alexander
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Dear Committee Members,

Out of the hundreds of testimonies and comments, I see that only three support SJR 201. And all three are from the same person: Representative Paul Evans, who came up with this idea in the first place. Every other testimony is opposed to SJR 201. Common sense says quit wasting time by proceeding further on this legislation. Punishing the taxpayers and using your time on this resolution is waste of all of our time and resources. Just one person out of hundreds thinks this resolution is worth the time to write a testimony in support of it. Enough said.

Vote NO now, so we don't have to waste anymore of our time, taxes and personal resources going to the polls to defeat this crazy legislation by voting NO. Move on. Sincerely, Paul Alexander. A tax-paying business owner.
