

Submitter: Stephanie Carino
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

I strongly oppose HJR 201, this bill is very concerning for several reasons, the first one being that no one is aware this is being voted on or even considered. How can you vote on something when almost everyone I've spoken to whether it be at work, at the doctors office or people in my family, they are not even aware that our livelihood is once again on the table to be voted for by elites, who don't particularly care about what we the people of Oregon want or need. Oregon is one of the highest taxed states in the country and people are leaving this beautiful state in mass amounts. We are taxed to death and we cannot afford it. I am begging you please do not punish Oregonians, and take away more money from us as we don't have anymore to give. Something this big, and this important needs to be put on a ballot for Oregonians to vote on, rather than our representatives, the consensus among most Oregonians is our representatives don't truly represent the majority of the will of the people and they vote on these types of life changing issues against us. Inflation is already causing most people to live paycheck to paycheck. No one I know can afford this. Please do the right thing, oppose this lunacy and vote no on HJR 201. Thank you for your time.
