

Submitter: Jeff SCHOLZ

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please do not raise our taxes! There are so many of us seniors that are barely able to afford our taxes as it is. An additional tax is not the way to handle this issue. Proper forest management at the Federal level would go a long way to alleviate the issues of concern. We who have lived in this state have seen what happens when a new tax is introduced. Before long additional taxes get tacked on because the 'tax' is already there. Please stop this now!
