

Submitter: Kevin Jones

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB4059

As a grower and seed saver and one who buys seed from local sources I am very concerned about the the outcrossing of GMO plants and especially Canola in my region.

I ask you to support legislation that sets standards that leave no question of safety risk to our Valley's seed production. GMO SEEDS carry traits completely foreign to naturally grown plants, and so pose an extreme risk.

That leads me to [support for/neutrality on] HB 4059-7. I strongly oppose HB 4059-8. Thanks for placing the burden of safe usage with those that threaten the rest of us using safe practices.

Sincerely,

Kevin Jones
