

Submitter: Mark Crawford

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

My name is Mark Crawford, and I ask you to support SB 1590. I am a father of two daughters and two step-daughters and being able to take them out on the river to wake surf provided an invaluable way to get them to bond when we merged our families.

We take out friends of all ages including some in the 60's and 70's who thought their days of doing water sports were over because water skiing was too hard on them at their age. Some of those friends can no longer go out and use their boat with their families and it really has been nothing short of heartbreaking to them to lose this activity.

Please allow those families back on the water and support going back to the compromise plan that was already in place and that focused on how to safely share the river for all users.

Thank you
