

Submitter: Tenille Woodward  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

I support librarians and this measure. Book bans are harmful. No one forces children to read every book available to them, but if a parent or organization decides a book is inappropriate for their child and succeeds in having it banned, they are making that decision for all children - including those who may not seem themselves represented as frequently in the books that remain available. Thank you.
