I oppose this amendment. Please stop this from happening. We are already overburdened with taxes in this state. An administrative authority for public safety should not be administered by the government but instead by the people and if need be. All the people in our state who will be affected by this proposed amendment need know that this agenda is happening and have proper time to respond but I don't see this happening. What is also of concern, if this were to happen, is what the administrative authority would consider good for public safety in their eyes, when in truth it is not good for the people. Would the people have a say in that? This amendment needs to be terminated.
