Re: Funding request for the Barbara Roberts Career Technical Education Center

Good afternoon, Representatives Elmer and Gomberg,

I have gone through CTE programs myself. I know firsthand how much it helped me start my young adult life. I had enough skills to start at Techtonics Tuning (1982) and then later received a automotive degree. It would have been a lot harder to achieve the success I have without the education I received from these classes.

The Sheridan students would benefit very much from these Firefighting/EMT Training and Diesel Tech with Truck Driving programs.

Thank you in advance for your support of this project,

Collin Gyenes
President/co Owner
