I am writing to express my strong support for the building of a public use sports facility in Lane county. As an active member of our community and someone who is passionate about sports and recreation, I believe that such a facility would bring numerous benefits to our residents.

First and foremost, a public use sports facility would provide a much-needed outlet for physical activity and exercise. In today's sedentary lifestyle, it is crucial to encourage and facilitate opportunities for people of all ages to engage in sports and recreational activities. By providing a dedicated space for these activities, we can promote a healthier lifestyle and improve the overall well-being of our community members.

Furthermore, a public sports facility would serve as a gathering place for individuals and families. It would create a sense of community and provide opportunities for social interaction, teamwork, and friendly competition. Regular participation in sports has been shown to enhance social skills and build strong relationships, which are essential for a cohesive community.

In addition to the health and social benefits, a public use sports facility would also have a positive economic impact on our community. It would attract visitors from neighboring areas, boosting local tourism and bringing in revenue for local businesses. Moreover, the construction and ongoing maintenance of the facility would create job opportunities and stimulate economic growth.
