

Submitter: Pamela Ezell

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: HB4004

Our children have already been placed in a position of setting in front of a gaming box or on the streets getting into trouble instead of learning how to become a functional adult. It would seem more important to present opportunities to learn integrity, honesty, and work ethics rather than further penalize a person for trying to hire them. I strongly oppose this bill.
