

Submitter: David Wall
On Behalf Of: Mr Oregon opposes SB 1534
Committee: Senate Committee On Education
Measure: SB1534

I OPPOSE [SB 1534].

School districts are in a state of turmoil compelling parents to seek private institutions to educate their children.

[SB 1534] serves to facilitate "cutting corners" of established education requirements to facilitate and enable the private charter schools which are commercial entities.

[SB 1534] could be used to address the Teacher shortage and could be described as a variation of [HB 4059]'s expansionary tool known as "Certificate of Need."

David S. Wall

Mr. Oregon Concurr, "Oregon has been slowly chipping away licensure requirements-especially, to address Eastern Oregon's development goals."
