

Submitter: Donna Beverage

On Behalf Of: Union County

Committee: Joint Committee On Ways and Means Subcommittee On Capital Construction

Measure: HB5202

Attention Oregon Legislature:

Union County needs indoor plumbing at our Fairgrounds. We use the Fairgrounds for much more than just the fair. It is used year- round and is very important for use in emergencies. No indoor plumbing hinders that, and we need the funds to connect to the City of La Grande water and sewer system. The challenge is crossing a river and a freeway to get there.

The current cost will be 4.1 million. This is up from just \$700,000 in 2019. We are asking for 2.5 million from the Legislature today. We have match for the rest of the Project.

We would appreciate your support for this very important project in NE Oregon.

Commissioner Donna Beverage

Union County
