Construction

Measure: HB5201

I am writing to ask you to please support the grant that will help to build a new ballpark for the Hillsboro Hops. My husband and I moved to Hillsboro in 2018 and never want to leave! One of our favorite activities is going to Hops games! We've talked about moving to other cities, but decided against it partly because we want to be close to the Hops. Do we know a lot about baseball? Absolutely not! But we have the best time attending games and look forward to the season every year.

Hops games are a great place to be around happy people and just have a good time watching the game. An MiLB team is a great draw for the city, and I look forward to seeing what other events will take place at the new facility.

I hope you will support the Hops and keep them in Hillsboro!
