Construction

Measure: HB5201

My son has played T-ball since he was 4 years old. He is now 8 years old. As much as he loves playing the sport, watching the professionals play is an entirely different experience. The Hops gives our family an additional way to connect and bond with our son. Our community needs more ways for families to be together, like attending baseball games together. Seeing my son's face light up after he caught a ball and got one of the players to sign it makes our family want to push to keep baseball and the Hops in Hillsboro. We get such long, dreary winters here....please don't take away the wonderful experience that the Hops provide our families during spring and summer!!
