

Submitter: Sandra Arsenault

On Behalf Of: Eugene Emeralds

Committee: Joint Committee On Ways and Means Subcommittee On Capital Construction

Measure: HB5201

I personally have worked at Eugene Emeralds in high school couple years including my 2 sisters it was a good work environment. The EMS have been around for many years helping the community with donations, creating a safe, diversity, fun, sport environment. We would like to see EMS stay in Eugene & making the complex usable for other community events. In the past EMS have allowed Eugene Springfield Relay Of Life to hold there 12 hour event for Cancer donation event that held across the Nation. EMS a great family, friends & community baseball event that also hosts corporation events & amazing fire works event on the 4th of July. Your community asking you to help keep the EMS in Eugene & help fund a worthy business to be around many more years for our next generations. ??
