On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB1593

No, three mills have just closed due to high log prices and low lumber price. This doesn't make sense with major federal lands not producing for the last 20 years. Bad management should not be put off on well managed lands of the small woodland owners.

Come up with better ideas, urban people are not qualified to make decisions for the people who live and work in our forested areas.

I Oppose making changes to the timber tax system already in place.
