Measure: HB4026

We live on the edge of North Plains. growth in North Plains will impact our quality of life. I am concerned that citizens are not being properly engaged so they have a voice in the UGB expansion process and envisioning the future of North Plains and Helvetia/ North Plains.

We need improved services, housing availability etc in our area. Growth is important but we need to plan in a thoughtful way that will take into account access to services, traffic, housing affordability, preservation of green space and farmland and water usage.

Thank you
