

Submitter: Dan Keeley
On Behalf Of:
Committee: House Committee On Rules
Measure: HB4026

Members of Rules Committee:

Dropping a gut and stuff amendment just before a three day weekend in hopes of no one noticing is no way to run a government, especially when the goal is to prohibit a specific initiative petition duly signed by more than enough citizens of North Plains to qualify for the ballot. Retroactively no less. Here is your chance to stand up for the common man you say you support rather than the developers that stand to make millions of dollars by ramming through a UGB expansion tripling the size of North Plains over the objections of city residents. Please round file Amendment 1.
