

HOUSE BILL 4028 - 2

Health Equity Relies on Robust Pharmacy Networks

House Bill 4028 - 2 provides needed protections for 340B pharmacy programs and ensures community pharmacies can continue to meet the needs of their patients. Ensuring access to pharmacy services is a vital aspect of providing equitable, high-quality care at community health centers.

One Community Health, a Federally Qualified Health Center in Hood River, and The Dalles recently heard from their patients about what PhRMA's contract pharmacy restrictions have meant to them.

Safety net providers and their community pharmacy partners serve a diverse population and geography. Health centers rely on these partnerships to ensure equitable access to lifesaving medications. HB 4028 - 2 would provide safety net providers and their pharmacy partners with the necessary protections to ensure patients can access the medications the need.
