

Submitter: Amy Jones  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: SB1548

I believe that time change affects the citizens of Oregon negatively. Not only is it ridiculous to think that it "saves" time, it also disrupts many peoples sleep. Having a singular time without change will benefit Oregonians by having them not worry about time changes and can expect the "same" amount of hours in a day.
