

Submitter: William Buchner
On Behalf Of:
Committee: House Committee On Revenue
Measure: HB4007

We lost almost everything including my blacksmithing business. It took 40 years to put together what was needed to live in this remote paradise. To have to pay this level of tax on top of our loss is hard to swallow. I was hoping to build again somewhere in Oregon eventually without this bill I'm not sure I will be able to do that. Right now I'm in MO taking care of my 93 yr old mother and finding that the cost of living is much lower here al-tho I prefer OR. Please pass this bill it would help so many people on the edge that have been hanging on for years now. Thank you Bill Buchner.
