

Submitter: John Frederick
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1548

I oppose the bill.

Have been in the construction field for 35 hrs now. Setting the time back in the beginning of the winter is a safety measure for all construction workers, it gives us daylight sooner at our 7am start time, which 7am is the legal work start time and 80% of us in the construction/outdoor work start at 7am. 7am It is also the beginning of rush hour traffic time, and keeping g us in the dark longer in the am would be a huge safety risk.

Thanks
