

Submitter: Lindsey Marsh

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

I am writing to oppose the second proposed amendment to the bill (item 3) which states that California or Washington must change to standard time. It is not as important for California to change to standard as we are not as connected as Washington. The amendment should require that Washington and California both change to standard time, as proposed in the first proposed amendment (item 2)
