

Submitter: Allison Adams

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: HB4083

As an administrator at Portland Public Schools with part of my paycheck going towards the PERS system, I am strongly in favor of divesting from the coal industry. There are so many other investment options available that will provide a better return and a more livable future for our children. Let's work together to invest in renewable energy, keep coal in the ground and move into that future together. Please support this bill. Thanks,

Allison and Ty Adams
