

Submitter: Jane Thatcher

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

This bill would have a negative impact on my quality of life, and will decrease my ability to enjoy daylight outside of my work hours. I work standard business hours, and through the winter it's dark when I start my day and dark when it ends. If we can't adopt permanent daylight savings time I would rather change clocks twice a year.
