

Submitter: David Wall
On Behalf Of: Mr Oregon Opposes HB 4150
Committee: Senate Committee On Health Care
Measure: HB4150

I OPPOSE [HB 4150].

[HB 4150] engages "Third parties" to participate in personal data access, transmission and storage. Who pays and how much?

Does the "patient" have any "rights" to oppose and or modify [HB 4150]?

When ever I see "Third Party access to information" contained in Legislation I become concerned on "data mining, storage issues and costs (for starters)."

Why are "No" costs documented in [HB 4150]? "Third Parties" don't work for "Free."

OHA is beset with poor management issues, why would anyone complicate OHA's workload with Prescription Drug Management System maintenance, data storage, data protection, data transmission et cetera.

[HB 4150] on the surface sounds like a good idea but, [HB 4150] generates too many questions and provides "No" answers to them.

Bring back [HB 4150] in the Long Session.

David S. Wall
Mr. Oregon Concur.
