

Submitter: Bill Harri

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4024

CoChairs and members of the House RulesCommittee:

Our society has need of decisions on really important topics.

Unregulated campaign money has immense influence on our elections and indirectly on our legislative decisions. The very recently introduced bill, HB4024, will mainly maintain this outrageous influence. A long investigative report by Rob Davis in the Oregon a few years ago presented very clearly what we each know intuitively -- that money buys our public decisions.

We must find a way to level the playing field. This proposed bill will not curtail the influence of money.

Please fix or scrap this proposal.

Bill Harris
Portland, OR
