On Behalf Of: we the people

Committee: House Committee On Behavioral Health and Health Care

Measure: SB1506

House members on Health Care:

I would support this bill IF the provision in Section 4, (3), were struct. The title is not factual, at best, if the registered pharmacist(master's degree at least) can delegate the task to a pharmacy tech(two year degree at best). A patient should be afforded the best possible care, by the most highly educated individual possible. Section 4, (3) does NOT allow for this. If a medical clinic is not in one's area of residence, but a pharmacist is located there, then this would be an acceptable option, without Section 4, (3).

Thank you,
Mark Pease, RN
