On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: HB4083

Thank you for the opportunity to comment in support of HB 4083.

As a physician and public health advocate, I strongly support HB 4083, the COAL Act, because I think it's important that we protect the fiscal viability of Oregon's investments. More than 400,000 Oregonians are PERS members. They and their families depend on their pensions. But their pensions are at risk when the Treasury invests in coal, which is a bad investment for the long term. Since California began removing coal from its CalPERS portfolio, it has gained an estimated \$598 million in returns. Oregon, on the other hand, has foregone \$340 million in returns, according to an analysis by Divest Oregon. As the former Deputy Comptroller of New York State said, "Divestment is a defensive tool employed to protect investors from the loss of value – losses as certain as climate change's global reach."

We need the Oregon Treasury to protect PERS and the rest of the Treasury's investments as we transition towards a GREEN economy and I believe this bill is an important step forward. HB 4083 is doable for the short session: the provisions of the act are specific, achievable and measurable.

Please vote the COAL Act out of committee!

Sincerely,

Jenny Pompilio MD, MPH
