

Submitter: Allen Taylor
On Behalf Of:
Committee: House Committee On Rules
Measure: HB4024

This great country has been teetering on the brink of undemocratic posturing since the days of the Reagan Presidency when he became the first "Corporate President." Since then, time and time again the Republican Party has been in the pockets of those who would destroy democracy in favor of total government control and an oligarchy dictator.

I say no and no again to this railroading of the constitution to satisfy the greed of the few to have power over the many. Just like what our Founding Fathers warned us about. Get your heads on straight and do something positive for "The People" you were elected and hired to serve. And shame on you if you turn your backs on Truth and Justice. Because it is true that without Justice there is no peace.
