

Submitter: Paul Horton

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

Please do not move forward with not allowing daylight savings time. Winters are dark and gloomy in Oregon and more light is needed in the evenings for outdoor activities.

A few years ago, Oregon and other west coast states were going to adopt permanent daylight savings time. Now this bill is proposing the complete opposite.

Either adopt permanent daylight savings time or leave the current system of changing the time twice a year alone.

Oregon should not be in its own time zone.

Don't take away our evening light.

Sincerely,

Paul Horton
