

Submitter: Becky Orf

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: HB4083

I am a PERS recipient, and I strongly support HB 4083 - the COAL Act. The act not only will keep Oregon's investments out of dirty coal that threatens our environment, but it is a bad investment. Oregon is actually losing money with our coal investments. Additionally, the COAL act will help preserve Oregon's treasured natural resources for us, our children, grandchildren, and future generations.
