

Submitter: Laura Jordan

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

The corporate practice of medicine is destroying access to quality healthcare. The goal of corporations is profit. The goal of good healthcare is timely, appropriate, and competent diagnosis and treatment. These two entities are in opposition to one another. Data proves that when corporations take over healthcare, costs go up and quality suffers. Please support this bill that ends the corporate practice of medicine. Oregon has an opportunity to be a leader in this fight and set a national standard that will improve the lives of millions.
