

Submitter: John Bahling

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

I am a pediatric Emergency Medicine provider. I have worked both before and now after corporate Medicine has taken over Emergency Medicine group Nationwide. Their practice of stripping Emergency Medicine groups down to bear bones has had a significantly negative impact on the quality of care that I can provide to patients. Their primary interest is profits. Not patient care regardless of what they say. and the richest nation to ever exist in the history of mankind. Our families and our friends deserve better. They care delivered should be a decision with all resources available, and between the provider, the patient and their family, without the influence of a corporate executor. We can do better. Our patient deserve better. Our children deserve better.
