

Submitter: Meagan Hajjar

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

Hi. I am a physician hospitalist. Everyday I see avoidable life threatening disasters that happen as a result of the corporate practice of medicine. Insurance companies and major corporations do not work to save healthcare costs and I see patients die as a result of their decisions and practices that are not patient centered. Physicians and patients should be making medical decisions, not companies. It is disgusting how these companies are making life and death decisions without evaluating patients or even being qualified to do so. Please stop the corporate practice of medicine with your vote.
