

Submitter: Marietta Angelotti

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

I am a Family Physician urging you to pass this measure as quickly a possible to make sure you and your family can find a doctor when you need one . The corporate practice of medicine has led to the burnout and early retirement of tens of thousand aid physicians across the country due to the focus on putting profits before patients. Lesser trained midlevels are being churned out at breakneck speed and regulations changed to fill the gaps with more volume of worse care to increase profits. Private equity has been coming in and all but destroying healthcare in community after community .

Please stop this before it's too late .
