Measure: HB4130

I am an Internal Medicine physician writing to support HB 4130, a bill that would prohibit corporations from practicing medicine. The bill closes the loopholes in the CPOM doctrine which have allowed corporations and entities to own and control medical practices and interfere in medical decisions. Further, many physicians are unable to speak and fear retaliation, all amid an epidemic of burnout within our profession. HB 4130 also limits corporate entities from enforcing harmful non compete agreements. I'm adding my name , along with many of my colleagues to support HB 4130 .
