

Submitter: parth patel

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

i am a physician and i went through gruesome hours of training and education to take care of patients. corporate medicine is the wrong type of medicine and hurts our patients. countless studies have suggested that doctors should be overseeing medical care WITHOUT the meddling and interference of corporations as their interests are in money vs the physician and healthcare workers who have taken an oath to help patients. the corporations have not taken such an oath.
