

Submitter: Vincent Flanders

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

CPoM is ruining our health care system and unfortunately only legislation can change our current trajectory. I am not aware of a single study that demonstrates improved outcomes, cheaper costs and overall better care, with CPoM as it currently stands. However, there are many articles that clearly demonstrate the opposite. When private equity enters the picture, outcomes worsen, costs soar >20%, and practitioners lose their autonomy. Stop this trend of greed and destruction.
